

CPFR components in CPH:

Most CPFR integrations will leverage existing CPH modals:

- CPH standard navigation—Entry point for CPFR / VC
- SSUA (Self-service User Admin)—Vendor contact admin
- SSUA—Chewy TM administration of overall vendor (MVP: external tools)

Key new component:

- iFrame data viewer leveraging embedded Tableau

Vendor Administration —Chewy TM View

- Uses SSUA Supplier Information Screen
- Report Selector or Role-based is TBD

The screenshot displays the 'Chewy Vendor Access Administration' interface. It features a table with columns for Supplier ID, Supplier Name, User ID, Role(s), First Name, and Last Name. Two users are selected, indicated by checkboxes. The 'Edit User' sidebar on the right shows details for the selected users, including First Name, Last Name, Email Address, Phone Number, Time Zone, and options to Enable Reports (Chargebacks, Vendor Compliance, CPFR) and Roles (Primary, Accounts Payable, Accounts Receivable). An orange arrow points to the 'Tier1' radio button under the CPFR report option.

☐	Supplier ID	Supplier Name	User ID	Role(s)	First Name	Last Name
☐	xxx-xxxxxx	Dynasty Pet	xxx-xxxxxx	Accounts payable; Accounts receivable	Tom	Hagen
☐	xxx-xxxxxx	Pet Bits	xxx-xxxxxx	Primary contact; CPFR-Tier1	Kevin	Flynn
☐	xxx-xxxxxx	Pets-R-Us	xxx-xxxxxx	Vendor compliance; Chargebacks	Saul	Goodma
☒	xxx-xxxxxx	Pur-n-Kleen	xxx-xxxxxx	Primary contact; Chargebacks	James	Holden
☒	xxx-xxxxxx	Pur-n-Kleen	xxx-xxxxxx	Chargebacks	Amos	Burton

Under MVP: Tier selection is external

- Uses SSUA Supplier Information Screen
- Report Selector or Role-based is TBD
- Options are a subset of those selected by Chewy TMs

[illegible]

Vendor CPFR Data Viewer

- iFrame port is only CPH engineering requirement
- Build commitment from Supply Chain BIE
- Draws from Supply Chain Single Source of Truth (SSOT) data
- Leverages CPH’s existing vendor data isolation controls
- Leverages Tableau’s built-in options for:
 - Sort and search
 - Tier-based visibility
 - Data range controls
 - Download (WSIWYG)
